

Sorry to future me.

Giselle Torres

SORRY TO FUTURE ME

- 5 part mini-series told from the perspective of CAMILA as she falls in and out of love with MASON, a boy she has never met before. They go from being strangers, to meeting for the first time in Brooklyn for a day, to having to face the emotional rollercoaster that is teenage love and heartbreak.
- Sorry To Future Me is the debut EP of Giselle Torres which includes 5 original songs written solely by her under the “indie pop” genre. Sorry To Future Me is a journey between two people all split up into 5 parts and told through 5 videos which will be released in the span of five weeks. Each song represents a different point and phase in their life, the good, the bad, the obstacles, the excitement, everything that makes these two people so perfectly imperfect. And how sometimes when you’re young, things don’t necessarily have to make sense. “It’s better to say sorry to future me than wonder what if.”
